

LITHIUM BATTERY LIFEPO4

Cranking Starter Battery

Green Energy Limited

LITHIUM Start Battery

Green Energy Limited has a range of Lithium Batteries that are designed especially for Marine Starters. Our Lithium Battery design is lightweight, long lasting, powerful and fast charging.

Installation

- Fully replaceable with Lead Acid
- 4 times the life span of AGM
- 4 times fast charging
- Twice the temperature range -10 + 65 Degrees vs AGM 20- 30 degree optimum operating range.
- High CCA

Features

- In-built Voltage Meter LCD
- Light Weight
- Powerful
- BMS Protection
- Compact
- Battery Level Indicator
- Long Life
- Low Cost

LITHIUM BATTERY RANGE

Cranking Starter Battery

Voltage (V)	MAX Voltage (V)	CCA	Gross Weight (kg)	Size. (LWH*mm)	Capacitance (Ah)
12.8	14.6	500	1.8	150*87*145	16
12.8	14.6	630	2.3	175*87*155	20
12.8	14.6	780	3.5	168*127*177	30
12.8	14.6	1100	3.8	238*172*200	40
12.8	14.6	1200	6.8	305*172*203	50
12.8	14.6	1300	6.8	352*174*190	60
12.8	14.6	1500	7.2	260*172*203	80

Can not be connected in series or parallel.

LITHIUM BATTERY

Sizes

- Lithium 12v 40ah = (AGM 12v 80ah AGM)
- Lithium 12v 46ah = (AGM 12v 95ah AGM)
- Lithium 12v 55ah = (AGM 12v 110ah AGM)
- Lithium 12v 65ah = (AGM 12v 120ah AGM)
- Lithium 12v 80ah = (AGM 12v 160ah AGM)
- Lithium 12v 95ah = (AGM 12v 180ah AGM)
- Lithium 12v 100ah = (AGM 12v 200ah AGM)
- Lithium 12v 110ah = (AGM 12v 220ah AGM)
